I don't have Facebook. How do I join?

To sign up for a brand new account, enter your name, birthday, gender, and email address into the form on www.facebook.com. Then pick a password.

After you complete the sign up form, Facebook will send an email to the address you provided. Just click the confirmation link to complete the sign up process.

How do I get to the ASA Facebook?

From any page on Facebook you will see a Facebook search bar at the top of the page, similar to that of the Google search bar. Click in this box and type in Azalea Society of America.

How do I "Like" the ASA Facebook page?

Once on the ASA page, you will see the page name Azalea Society of America. To the right of this is a button titled "Like". Click on this button. This is the first step to give ASA more visibility!

How can I post a photo on the ASA Facebook page?

A little bit down on the left you will see a white box that has "Photo/Video" in the right corner. If you want to share a photo of an azalea or an ASA gathering click on photo.

The box will expand and you will see, "Select an image or video file from your computer", click on the word "Browse" just below. You can search for a photo and attach the same way most email programs operate. Just above in the same box where you see "Write something..." in italics, you can comment on each photo.

How can I quickly share "posts" with other people without having to direct them to the ASA page?

There's a "Share" link under content people post. You can use this link when you see something interesting and you want others to see it.

There is an event I want people to know about. How can I get it featured on the ASA Facebook page?

Whether it is a chapter plant sale, hike to a bald to see azaleas, or a feature presentation at your chapter's ASA meeting, let us know! Located just to the right of where you "Like" the ASA page there is the option to "Message." The message will go to ASA Facebook managers.

Facebook is a great way to connect with ASA members, family, and friends!
