On the Cover

According to author Barbara Bullock, this azalea (MH-GD #199) is near where the label bearing the number "PI 77117" was found on Mt. Hamilton. Researching this PI (Plant Introduction) number, traces it to: 'Kyu-miyagimo', one of the Kurume cultivars from R. Kent Beattie's 1928 plant collection trip to Japan. Thus, it is one of the early parents of the Glenn Dales used by B.Y. Morrison. Photo Barbara Bullock.
